

## BPI's Winter Storm Supply Checklist

Once you turn on your home's heating system or start up the fireplace, you're going to want to keep that warm air inside and the frigid air out. To do this, make sure your home is properly insulated, your roof and HVAC system are in good condition, and any gaps or cracks in your home are sealed.

Then prepare for bad weather by stocking up on these necessary items to keep you safe and warm before winter storms hit:

- Ice melt
- Snow shovel
- Windshield ice scraper
- Jumper cables
- Tire chains and tow rope
- A full tank of gas in your vehicle
- Solar lanterns
- Flashlights
- Batteries
- Portable generator
- Cell phone battery packs
- First aid kit
- Medications prescribed by your doctor
- Personal hygiene items
- Emergency contact information
- Copies of personal documents
- Extra cash
- Extra blankets
- Extra hats, coats, and gloves
- Water
- Extra pet food
- Nonperishable foods like canned goods and power bars

Get ready for winter! Stop at your local lumberyard to pick up all the necessary items to protect your home or business against the elements and keep everyone in it safe and sound. [Contact us to find an authorized BPI Dealer near you.](#)
