

BPI

EXPANDED DISTRIBUTION CENTERS

FULLY STOCKED, DESIGNED TO STREAMLINE YOUR DELIVERIES.

BPI's Council Bluffs and Fargo branches have been transitioned into fully stocked distribution centers. Dealers in these areas can now enjoy greater access to a wide variety of inventory that was originally accessible from Sioux Falls only. This exciting change means faster delivery and quicker turnaround times. We are committed to serving you to the best of our abilities, and expanding these branches lets us honor that commitment.

Both locations will feature a streamlined yard layout and bin locations that allow for faster staging, more organized deliveries, and easier pick-up of your orders. We've also incorporated a new Warehouse Management System at each site to help ensure accurate inventory at all times.

Dealers who are closer to the Council Bluffs and Fargo facilities will now have access to a much larger selection of inventory. You'll experience faster delivery times and have the ability to quickly and easily provide more products to your customers. Faster turnaround times will free up more room for inventory at your location, saving you time and money. Missed deadlines, delays, and extended wait times that adversely impact customer satisfaction will be eliminated.

Dealers from all areas will benefit from this expansion. The increase in the volume we stock and ship from Council Bluffs and Fargo will give us greater flexibility to serve our customers whose shipments come Sioux Falls.

Questions about our different locations or want to know more about this service? Contact your BPI Sales Representative today to learn more.
